Their call is to conduct a six weeks' campaign in Detroit beginning September 17th of this year, and for their use a tabernacle seating ten thousand people will be secured."

That the Spring Opening at the Lopez Store Company's last Saturday was very largely attended needs no assertion. The openings at the Big Store for many years past have been noted as far beyond and past similar displays and exhibits outside the larger cities. Last Saturday was no exception to the rule. Manager Ringo and his assistants had well done their part and most extravagant were the praises and congratulations extended by every visitor. All the latest and tastiest in millinery was on exhibition and the ladies were more than delighted by the visual feast spread before their eyes. A fetching and attractive cream pitcher was presented every lady as a souvenir of the happy day and most successful occasion. The Big Store again covered itself with glory.

W. single unit, built so it can be duplicated. The power for the three plants of Bonne Terre, Leadwood and Rivermines has heretofore been furnished from Bonne Terre and Rivermines. The new plant transmission of power will run parallel with the present system and will be able to furnish power for all the plants. The work will begin in the near future and will be completed sometime this fall."

The following, taken from a recent issue of the California Citigraph, published at Riverside, California, tells something of our former fellow citizen, Mr. Frank Scoville: "In the summer of 1894 Messrs. George Brown, T. B. Drinkwater, and Frank Scoville submitted a plan to build a packing house to handle all the fruit then in the colony, and as this was favorably acted upon by the growers the association withdrew from the Riverside Fruit Exchange and application for a representative on the Exchange Board of the Southern California Fruit Exchange was made. This being granted, Frank Scoville was elected as such representative, which position he held continuously from 1894 to 1906. Mr. Scoville was likewise made manager of the packing house, which was thrown open for business in January, 1895.

The real estate of the Potosi Lead, Barytes and Mercantile Company, comprising some 23,000 acres lying principally in the vicinity of Potosi, was sold by the Mercantile Trust Company, of St. Louis, trustee, under foreclosure, here last Friday. The property was bid in, in bulk by the Missouri Lincoln Trust Company, of St. Louis, for \$200,000. The mortgage, first and second, against the land amounted to \$327,741.61, with a credit of \$69,617.51, leaving a balance of \$258,123.10 unpaid. The war tax revenue stamps on the transfer papers amounted to \$201. Just what the Missouri Lincoln Trust will do with the property is not known here. For several years the land, which is largely mineral land, has been unproductive outside of the rents obtained from a number of farms it includes.—Potosi Journal.

Iron County Baby Week Last Week in April.

On March 4th, 1916, an unique national campaign opened. It is a campaign neither of politics, commerce, nor reform, but one purely of education, and includes every citizen in its purpose, which is that of teaching the community the value of its infant population.

As a community, we are taking part in what is really a nation-wide movement for a wider recognition and a profounder realization of the fact that this or any other community can determine largely the character of its future citizens by the attention which it gives to the needs of its babies.

Babies are the raw material of civilization; the plastic clay to be wrought partly at least, by our hands, into what form we will. If we decide that we have no responsibility for shaping and molding this clay, we show ourselves to be outside the present trend of scientific thought, leading thinkers, not only in the United States, but all over the civilized world, are telling us that there is no better index to the intelligence of any given community than the one to be read in the conditions under which it allows its infant citizens to develop; the comfort of its houses; the purity of its drinking water; the cleanliness and care demanded of its milk producers; the civic regulations over refuse removal, the fly nuisance, paving and drainage, the provision of fresh air and recreation—and the

general oversight it exercises over its sanitary conditions.

This is the responsibility of every adult citizen, whether parent or not.

Baby Week has been instituted for the purpose of bringing home this responsibility to all of us. Look about you and ask yourself whether the conditions in this community are such as make it an ideal place for children.

The Style Shop.

The Openings of the Style Shop have become a semi-annual affair that the ladies of Ironton have learned to look forward to with pleasant anticipations. While Lulu Gillam Woodside has given frequent evidence of her talent in these attractive displays, the Style Shop produced by her at the Academy of Music Thursday evening was the most ambitious effort to please her patrons that she has made so far. It was a delightful surprise—novel, beautiful and artistic.

The stage was set to represent an exterior scene. It was decorated with plants and palms, the necessary touch of color being introduced by a number of artistic French baskets of gorgeous flowers; the lighting was perfect and the effect beautiful. Into this attractive scene was introduced the models, showing the latest up-to-date creations in gowns and millinery. The costumes shown being furnished by the Thomas W. Gaudin Suits Co., St. Louis; the millinery, the creations of the Style Shop.

Those who assisted so creditably as models were—for the little folks, Ruth Hanson, Jesse Hawkins, Jr., Dorothy Dodd Collins, Mary Saline Ake, Wilfred Trauernicht and Augusta Trauernicht; for the older folks, Misses Pearl Conway, Esther Allen, Elizabeth Boswell and Madames Bess Gillam Curtis, Ruth Kanouse Collins and Beatrice DeWeese. Each of the ladies displayed one street, afternoon and evening costume, with hats to match.

A sweeter lot of children or a prettier bunch of lady models it would be difficult to find anywhere.

Jesse M. Hawkins, Jr., and Misses Wilfred Trauernicht, Dorothy Dodd Collins—all under five years—with Miss Ruth Hanson, Gaudin Suits Co., St. Louis, the primary object of Mrs. Woodside was to show to the ladies the latest styles in millinery and moderate priced gowns, there was a pleasure added in the way of music that made the programme a delightful entertainment. This consisted of a vocal solo, "Springtime," beautifully rendered in her full, rich contralto by Miss Mary Edgar, while Mrs. Beatrice DeWeese sang charmingly a double soprano solo, "The Days," by Ardi, and a Chalmers "Summer." Miss Jessamine Woodside gave very creditably a piece entitled, "Selling Hats," that was appropriate as well as humorous. A double piano solo, "Rustle of Spring," by Sindling, and "A Spring Awakening," was artistically played by Miss Irene Marshall. The incidental music kindly furnished by Miss Irene Marshall, assisted by Messrs. Ake and Fisher, helped materially to round out the 1916 Spring Opening into an entertainment that was instructive, beautiful and entertaining, and well becoming the Style Shop's 20th anniversary. The audience attending tested the capacity of the hall and gave frequent evidences of enthusiastic enjoyment and approval.
